

# WH10 - Waterborne Hardener

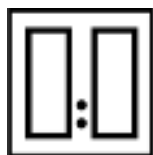

## Product Description

Designed to enhance the through hardness of the waterborne basecoat when multi layers are required or panels require painting without the addition of a clearcoat.

## Suitable Substrates:

For Hydrobase basecoat.

## Product Application

Add 10% to ready to spray material.

Pot Life: Hydrobase without WH10 unlimited. Hydrobase with WH10 4 hours.

## **Important Remarks:**

- For professional use only.
- Can be used where multi layers of coats are required (i.e. 3 Stage pearl coats, to strengthen the ground color, do not add to pearl effect color.)
- To areas or panels where clearcoat is not required. (i.e., Interior panels not exposed to sunlight, underhoods,) it strengthens the finish and improves the chemical resistance.
- Leave activated Hydrobase where no clearcoat is applied to dry for a minimum of 8 hours for full chemical resistance

## **Cleaning of equipment:**

Clean after use with **Hymax** Cleaning thinner.

Wear suitable protection
